STEEL, BRASS, PLASTIC, STAINLESS AND ALUMINUM PIPE NIPPLES
MALLEABLE IRON, BRONZE, STAINLESS & MERCHANT STEEL AND COPPER PIPE FITTINGS

RoHS EXEMPTION & CERTIFICATE OF COMPLIANCE

REVISED: 08.01.2019

EXEMPTION

The Edmund A. Gray Company Inc, of Los Angeles, CA is in the business of manufacturing and distributing pipe nipples and distributing pipe fittings (flow control products) to wholesale stocking distributors in the following industries: plumbing, industrial piping, irrigation and waterworks. We are NOT an electronics manufacturer. As such, our business focus and distribution channels exempt us from the scope of conditions covered in the EU's RoHS Directives (most recently (EU) 2015/863 and all prior revisions).

Reasons for exemption:

1. Edmund A. Gray Company does not manufacture or distribute electrical or electronic equipment (EEE).
2. Electrical or electronic components are not required to fulfill the primary function of any of our products.
3. Our plumbing products are "placed on the market" (if imported in the EU) separately from electrical and electronic equipment, therefore are not covered by or subject to RoHS Directives.

RoHS Permanent Exclusions include the following: *.....equipment designed to be part of another piece of equipment falling outside the scope of RoHS.....* etc...

Since none of the products we sell can perform as a single functional or conventional unit (i.e. a nipple or fitting cannot perpetuate the flow of water or gas without being attached to other equipment as part of a system), our products are necessarily considered to be "*equipment designed to be part of another piece of equipment*" and, since they are NOT EEE materials, also *fall outside the scope of RoHS*.

COMPLIANCE

Should any product we manufacture and/or sell find its way into an assembly or installation requiring RoHS compliance...

The Edmund A. Gray Company certifies that it does NOT add, or cause to be added, any of the listed hazardous substances (also listed hereunder), as identified in the EU's RoHS Directives (most recently (EU) 2015/863 and all prior revisions), to the following products:

Steel Pipe Nipples, Red Brass Pipe Nipples, PVC Plastic Pipe Nipples, Stainless Steel Pipe Nipples, Aluminum Pipe Nipples, Black and Galvanized Malleable Fittings, Cast Bronze Pipe Fittings, Merchant Steel Pipe Fittings and Couplings, Copper Tube Fittings.

Listed substances and thresholds: Cadmium(Cd): 0.01% / Mercury: 0.1% / Lead(Pb) : 0.1% / Hexavalent chromium (Cr6+) : 0.1% / Polybrominated biphenyls (PBB): 0.1 %; / Polybrominated diphenyl ethers (PBDE): 0.1 % / Bis(2-Ethylhexyl) phthalate (DEHP): 0.1% / Benzyl butyl phthalate (BBP): 0.1% / Dibutyl phthalate (DBP): 0.1% / Diisobutyl phthalate (DIBP): 0.1%

The Edmund A Gray Company has inquired with our raw material and finished goods suppliers and to the best of our knowledge, based on **their** responses to us, the material(s) being supplied to us do not exceed threshold concentration levels for hazardous substances listed in RoHS directives (and listed herein). However, we have no control over their manufacturing processes; Therefore, we cannot be held responsible for changes to their processes which may inadvertently result in changes to concentration levels.

"IF IT'S A PIPE NIPPLE WE HAVE IT"
